⬚ How to Download IPTV Smarters for macOS (Apple Mac)

Follow these simple steps to download and install IPTV Smarters on your Mac computer.

⬚ Step 1: Open the Download Link

Click the link below on your Mac:

⬚ https://www.smartersott.app/download/?download=mac

⬚ Step 2: Download the App

- Your browser will start downloading the IPTV Smarters .dmg file (installation file for macOS)

- Wait for the download to complete (you'll find it in your **Downloads** folder)

⬚ Step 3: Install the App

1. Open the downloaded .dmg file

2. Drag the **IPTV Smarters** icon into your **Applications** folder

3. If prompted, confirm installation and allow permissions

⬚ Step 4: Open the App

- Go to your **Applications** folder and open **IPTV Smarters**

- You may need to allow it under **System Preferences > Security & Privacy** if macOS blocks it initially

---

⬚ Step 5: Log In & Watch

- Enter your IPTV account details (provided by your IPTV provider)

- Start enjoying your favorite content on your Mac!

ⓘ Tip:

If you see a warning like "App can't be opened because it is from an unidentified developer," go to:
System Preferences > Security & Privacy > General and click **Open Anyway**
